HIGHLANDER

What if it's possible to have it all? The Toyota Highlander is a Hybrid that offers the best of both worlds. It has the power to cruise at speed on long motorway road trips, but low CO₂ emissions for inner-city traffic.

It handles outstandingly, performing equally well on steep mountain climbs as urban commutes. Its streamlined design makes a serious style statement, while a luxurious interior comfortably fits the whole family – with adaptable storage space for any luggage requirements. Imagine a car without compromise. Imagine the Toyota Highlander Hybrid.
